ARE YOUR HORSES BRINGING HOME LESS BLUE RIBBONS LATELY?? Maybe it is time you gave them a change, not only in color but also in position. We have re-done many models & I can say that we have yet to make one that isn't a winner. In fact, most of them are taking top honors at big Championship shows. All you have to do is send me the type of model you want remade, description or pic of how you would like to have it remade, what color rep., & I'll send you an estimate of costs. We are very reasonable & the jobs mostly run between \$5-\$7. This is not unreasonable considering the increase in your winnings as a result of having a different model than the rest. You supply model as stores in this area do not carry them. Only Breyers & other plastics accepted. We are not responsible for models that break due to inferior quality in orig. model. This is why we recommend Brey. as they usually work best. Deb Dildine, Box 15, Eleroy, Ill. 61027.

While your mare or stal. is here, why not get a foal by some of our fantastic horses? Here are some you haven't seen before:

W.C. BAJRAM: probably 1 of the greatest Park horses in the showing today, beautiful liver chest. Arab w/lighter m/t, fee is 10¢ & SASE, or 5¢ if bred with remake/repaint.

W.C. MARIJA: winning everything! Lovely not only in temperament but in appearance, her first foals are exhibiting all the qualities a person who breeds Arabs is looking for. Fee: L)@ & SASE, or 5¢ w/rep./rem.

W.C. SPECKLE SPOT: good-looking flashy App with promise of color galore, first foals on ground, fee: 10¢ & SASE or 5¢ w/rem./rep.

W.C. SPOTTED JULEP: Pinto 3/4 Arab won 1st & only class at 2 yrs. old, at live show w/20+ entries in class! Fee: 5¢ & SASE or 2¢ w/rep./rem.

Plus many, many more! Stud/dam listing available. Write for details. Many costumes for sale or will make to order for you! If you want to win, you must stand out remember! Nothing stands out like a repaint/remake! FOR A LIMITED INTRODUCTORY OFFER, a free costume for breed type w/every order! (App=Indian, Arab=Arabian, Paint=Indian, etc.) Not a cheap one either but one of showable quality. Write today for your repaint/remake job.

entered a show & when I finally got my results, I threw them away! The ribbons (I think that was what they were) were made up of lopsided circles w/streamers of kleenex. Chalk was used to write the place numbers & you know what kind of a mess chalk makes unless you spray it! About \$4-5 worth of pix were ruined because of some person's ignorance. Please people, make your ribbons BEFORE YOUR SHOW so the glue, ink, etc. has time to dry...A Discouraged Shower.." (Ed. Argh! Showholders, NEVER write on the back of anyones' pix--ever. And watch out your ribbons do NOT mess up the other person's things. Treat them as though they are yours, because word gets around plenty fast as to who messes up whose pix. They are NOT yours to mis-use, so watch it. In the past blacklisting was done for such as this--meaning you were outlawed from entering shows for such an offense. So keep your pens/pencils off of other folks' property, because it will come back to you in some form, be it no showing allowed or what. Thanky!)

INFORMATION, PLEASE... Jan Snyder, 7611 So. Parkway, Sacramento, Ca. 95823

Hi, folks! I hear many of you are wondering how to count up points from shows you enter. First off the reason to count points is if you belong to a model club that gives certain awards for the accumulation of points the model wins during the year. If you don't belong to any model clubs or registries, you needn't worry about counting showing points. If you do, write the registry & obtain their point scale. It should run something like this: 1st=10 pts., 2nd=9 pts., etc. Most every registry has a different designation of points for the different placing your model wins. When your models return from a show, count up the number of points won from the placings it received. Write his/hers total number down in a notebook for points under the showname where they were won. In this book you can keep a record of the total number of points won during the showing year. Your registry will have its own rules on what to do with your points once they are added, so follow their information carefully... And an ending shortie here: All Hartland models are discontinued. The Hart. Co. is no longer in business. The co. sold all its molds to the Strömbecker Circle H Co. & they continued these models in different colors, but I hear these reproductions have also been disc... More answers next month! See ya all!

MEETINGS AGAIN! The responses are STILL coming in on the old Breyer Prancers/Fury models, and next issue will see a compiled info article on saddles, riders, colors, etc. But for now, I have a real goodie for you. He is a TB; bay (red w/2 wh. socks, large star, grey hooves, and his mane falls med. length on the other side of his neck. The halter is black & molded on w/gold rings! He stands 8 1/2" at the ears & carries no trademarks or brands. He is glossy like a Beswick but has the head more or less like a Lefton. Do you know who he is? If so, send all thoughts/help to Linda Walter...

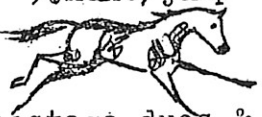

DO YOU KNOW THIS MODEL?

Now, to the old Hartland, yes, that one last time was definitely an old Hartland. Color variations included: wh/ w/blk. martingale-silver studded & saddle to match (Lone Ranger rider), Palo. w/blue mart. & silver studding (Roy Rogers), bay w/o martin. but w/rubber type working West. saddle (The Rifleman), a Pinto, an Appaloosa (gr. w/wh. blanket & blk. points #800AP), pure black one w/tack (Zorro!), another bay (Wyatt Earp), and still others carried a Calvary officer, Bat Master-son, etc. Another recent color discovery is a grulla/dun! Tack varied as to colors: brown, black, silver-studded blk., blue, painted on, not painted on, etc. Some were made back as far as 17-20 years ago according to some who have had them that long, and the later versions must have carried the Hartland stamp because some report them on the inside of the hindleg while others do not. If you have additional information to add to this, please send it in? Next issue I hope to have located enough old Hart. catalogs to give numbers to some/most of these. Thank you--and if you know our latest ceramic/fine china "mystery", please identify him!
